WELCOME TO CRYPTO, FOREX, ARBITRAGE TRADING

*(CONNECTING YOUR FINANCIAL FUTURE)*

# Disclaimer

Cryptocurrency trading is highly volatile, with prices subject to unpredictable fluctuations. Investing in cryptocurrencies involves considerable risk, and historical performance should not be viewed as a reliable indicator of future outcomes. Potential losses may exceed the initial capital invested. It is imperative to conduct comprehensive research and assess your risk tolerance carefully before making any investment decisions.

# About Us

## Market Trader

A similar graphical interface will help you get familiar with the platform quickly. Unique integration with centralized exchanges allows traders to trade commodities and indices in addition to Forex. Traders can place eight types of pending orders to gain more precise control over open positions. The Black Hunter Market supports both intraday swing trading and position trading.

*"With over 15 years of expertise in Crypto, Crypto Arbitrage, and Forex trading, Black Hunter has consistently led the way in navigating complex financial markets. Our deep industry knowledge and proven track record empower us to offer innovative, secure, and profitable solutions for individuals and communities worldwide."*

# Cryptocurrency

**Cryptocurrency is a digital or virtual form of money that uses cryptography for security. Unlike traditional currencies, it operates independently of a central bank. Cryptocurrencies leverage blockchain technology, a ledger that ensures transparency and security by recording transactions across a network of computers.**

# Arbitrage Trading

Arbitrage is the simultaneous purchase and sale of the same or similar asset in different markets to profit from tiny differences in the asset's listed price. It exploits short-lived variations in the price of identical or similar financial instruments across different markets or forms.

*"Arbitrage trades are most commonly made in stocks, commodities, and currencies, but can be executed with any asset. Arbitrage takes advantage of inevitable market inefficiencies."*

# Forex

Forex is one of the largest and most liquid markets globally. In 2010, the forex market accounted for more than \$3 trillion in daily trading. Over the last decade, daily trading volumes have increased by 40%, reaching \$6.6 trillion each day. This marks a nine-year peak since 2010. Interestingly, the forex market didn't exist a century ago. Unlike the stock market, we cannot trace the roots of the forex market as far back.

# USDT Loan - Terms & Conditions

1

\$50 Self Package is compulsory to be eligible for loan funding.

2

To qualify for a loan, you need a \$300 or higher self-package and 10 direct sponsors.

3

The USDT loan amount is activated through your \$70 and \$150 self-packages, followed by activation of your \$300 self and trade package.

4

The profit is shared between the company and the ID owner (70% for the ID owner, 30% for the company).

# Terms & Conditions

**Automatic Re-Top-Up:** Whether you choose the individual package or the package with trade, profits are capped at 3x. After reaching this cap, the re-top-up occurs automatically.

**Income Components:** The 3x profit includes:

- Level Income (Upline and Downline)
- Autopool Income
- ROI (Return on Investment) + ROI on ROI

**Activation of ROI Income:** If you are active with the individual package only, you will start earning once you activate the trading package. After activating the trading package, your ROI and ROI on ROI income will begin.

**USDT Loan Availability:** The project offers a USDT loan, subject to these conditions:

- You must have a Self Package of \$300 or more.
- You must have at least 10 direct sponsors in the same package, whether individual or with trade, for the company to approve your loan.

**Profit Sharing for USDT Loan:** The loan amount is subject to profit sharing between the customer and the company:

- 70% of the trading profit goes to the customer.
- 30% goes to the company.

**Loan Repayment and Profit:** After 3x profit is achieved and the loan is topped up, the profit-sharing continues with 70% going to the customer and 30% to the company.
